

Certificate of Compliance

Certificate Number PLAS006

Navicade Channelizing Cone

Plasticade Products certifies that the Navicade Channelizing Cone meets or exceeds Part 6 of the Manual on Uniform Traffic Control Devices (MUTCD) 2009 Edition Section 6F.

We also certify that the Navicade Channelizing Cone meets or exceeds the National Cooperative Highway Research Program (NCHRP) Report 350, Category I, issued by the Federal Highway Administration (FHWA) and is deemed compliant as referred to in WZ-301.

The Navicade Channelizing Cone has been in use for many years and deemed to be “crash worthy” under the guidelines stated above. The Navicade Channelizing Cone has demonstrated safe operational performance and poses virtually no risk that this device will (1) enter the driver’s compartment, (2) take away the drivability of the vehicle, (3) have a significant effect on the control or trajectory of an impacting vehicle if properly assembled and installed.

This certificate shall not be reproduced except in full.

Date of Issue: 3/18/11

A handwritten signature in black ink, appearing to read "Henry A. Ross", is written over a solid black horizontal line.
