

Certificate of Compliance

Certificate Number PLAS012

Plasticade Stacker Cone

Plasticade Products certifies that the Stacker Cone meets or exceeds Part 6 of the Manual on Uniform Traffic Control Devices (MUTCD) 2009 Edition, Section 6F.

We also certify that the Stacker Cone meets or exceeds the National Cooperative Highway Research Program (NCHRP) Report 350, Category I, issued by the Federal Highway Administration (FHWA) and is deemed compliant with this certification.

The Stacker Cone has been in use for many years and deemed to be "crash worthy" under the guidelines stated above. The Stacker Cone has demonstrated safe operational performance and poses virtually no risk that this device will (1) enter the driver's compartment, (2) take away the drivability of the vehicle, (3) have a significant effect on the control or trajectory of an impacting vehicle if properly assembled and installed.

This certificate shall not be reproduced except in full.

Date of Issue: 4/19/11

A handwritten signature in black ink, appearing to read "Henry A. Ross", written over a horizontal line.
