

RHINO CHANNELIZER BARREL

Standing at 44" tall, this is the tallest and most visible barrel available on the market

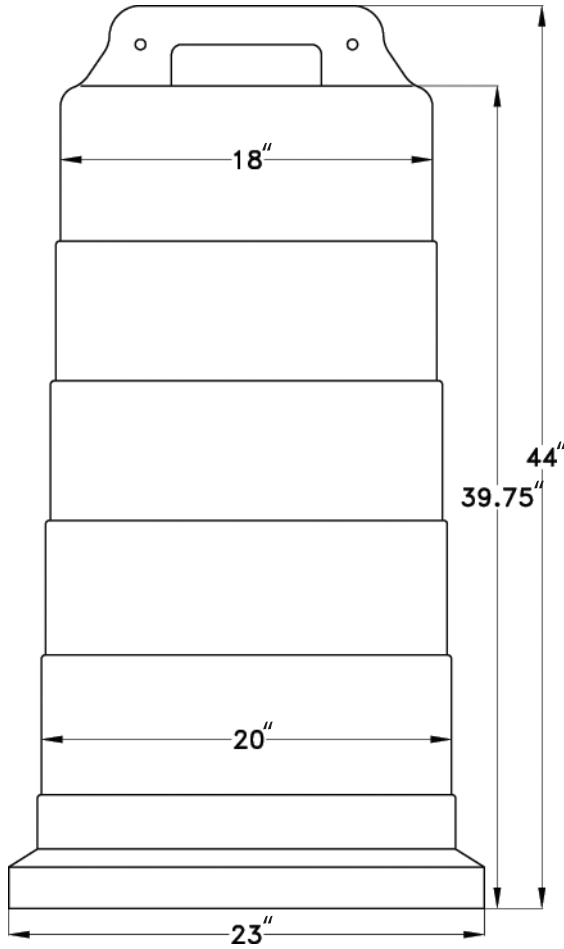

- Thick wall design makes this barrel extremely sturdy and durable
- Features molded-in handles with holes for mounting a light and 5 tier design for reflective sheeting
- Available in high or low density polyethylene
- Secure with a tire ring, rubber base, or our plastic base that can be filled with sand
- NCHRP-350 Accepted, Meets MUTCD Standards

Secure the barrel with a tire ring or our plastic base. Plastic bases have molded-in stacking lugs making them easy to store or transport. Plastic bases can be filled with up to 50 lbs. of sand.

PLASTICADE®

RHINO CHANNELIZER BARREL

Specs

Composition	Available in both Low Density and High Density Polyethylene
Weight	10 lbs.
Color	Orange
Reflective Sheeting	Available in Engineer, High Intensity, or Diamond Grades
Stripes	4" W or 6" W
Plastic Base	High Density Polyethylene
Tire Ring	22.5" inside dia. 24 lbs. Bundled in stacks of 35 ea.

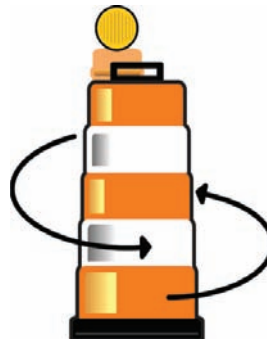

Base can be filled using 50 lb. capacity funnel. The sand is permanently sealed in with a positive lock plug.

Drum "clicks on" the sand filled base

Positive interlock allows drum to be lifted with 50 lbs. of sand in the base without separation

To remove, it twists off like a bottle cap
